[Despatch Abstract.]

Veterinary Institutions - Free anti-rabic treatment to animals bitten by rabid dogs - Ordered.

GOVERNMENT OF MADRAS

(Abstract)

VETERINARY INSTITUTIONS - Free anti-rabic treatment to animals bitten by rabid dogs - Ordered.

Development Department

G.O.Ms.No.1543, Dated 30th March 1948
Read the following:-

From the Director of Veterinary Services, Letters C.No.5105-II/47, dated 22nd August 1947 and 22nd January 1948.

O R D E R:

In some of the more important Veterinary Institutions fees are now levied for treatment of all animals whose owners are in receipt of an income of Rs.100/- and over per mensem. In regard to anti-rabic treatment, however, no distinction is made between the rich and the poor in respect of the charges for vaccine and other incidental charges involved. The Director of Veterinary Services has proposed (1) that free anti rabic treatment may be given to animals whose owners are in receipt of an income of less than Rs.100/- per mensem in Veterinary institutions where fees are now levied and (2) that fees may be charged for anti-rabic treatment for animals whose owners are in receipt of an income of Rs.100/- and over per mensem in veterinary institutions where all animals are treated free at present. The Government consider that Rabbics is such a dangerous thing that if any body neglects it, it will ~~infect~~ affect the entire cattle of the locality and also human beings. They therefore direct that no fees should be charged from any body, rich or poor, for anti-rabic treatment in Government Veterinary institutions.

(By Order of His Execllency the Governor)
